

Petali

Description

Played on a calibrated proportion of soft geometries that trace a delicate and at the same time highly characteristic volume. No straight lines - just curves. Structure in curved birch wood and non-deformable rubber padding with dacron covering. The love and care in choosing the best raw materials is not only a demonstration of traditional values, but serves to convey a refined sense of luxury. Each Italian handmade Mascheroni product is marked with a plate engraved with the brand "Mascheroni srl Made in Italy" which certifies its authenticity.
