### *Description*

High and mid-backrest armchair created for high-end offices, meeting and conference rooms. It has a 5-spoke steel base with castors which adapt to all kind of floors. The armchair is rotating, gas height adjustable by pulling a lever under the seat and it is equipped with the "Sincron" mechanism. The structure is made of birch shaped wood. Inside padding material: non-deformable rubber. Available in all natural leathers of "Mascheroni leather colour system" collection. Each Italian handmade Mascheroni product is marked with a plate engraved with the brand "Mascheroni srl Made in Italy" which certifies its authenticity.
