

Ester

Design: Norberto Delfinetti

The image corresponds to composition 8

Description

Sectional with structure in wood upholstered in fabric or leather. The structural base is raised from the ground by wooden feet. The padded armrests are slightly inclined. High density polyurethane foam. Seat cushions filled with multi-density polyurethane foam and goose down. Backrest cushions filled with goose down. Fabric version removable.

Versatile for linear, corner or peninsula compositions, this seating system features an appeal that inspires warmth and comfort. The skilful play of the square shapes with the abundance of maxi seats creates an original contrast and underlines the quality of the workmanship, of every single stitch sewn with skill around the generous padding. Made in Italy.
