

Pheaby

Design: Patricia Urquiola

Description

Chair with structure in painted ash. Seat and backrest in wooden multilayer padded with differentiated density polyurethane foam. Non-removable cover in fabric. The legs, with feet rather more similar to a carpenter's trestle than those of a chair, support a softly-rounded seat with no sharp edges.

Pheaby perfectly embodies the characteristics of its materials, revealing through versatility, subtlety and comfort the rational nature underlying the formal design choices. Made in Italy.

FSC® Certified

Dimensions

20"W x 22"3/8D x 30"3/8H

Seat height: 18"1/2
