

## Redondo

*Design: Patricia Urquiola*

### *Description*

Sofa with wooden structure covered with polyurethane foam with differentiated density and polyester fiber. The seat cushions are in polyurethane foam and polyester fiber. Optional back cushions are filled with goose feathers. Removable cover offered in fabric. Available in 2 different sizes. Feet in black polypropylene screwed to the structure 1"5/8H.

A collection with a distinctive two-part shape, the padded shell embraces the huge seat cushions. Its curves are shown off by the total absence of sharp corners and the softness of the fabric, and the quilted decoration where the thread, like the lines of a pencil, draws an elegant three-dimensional form to call to the senses. Made in Italy.
