

Ruff

Design: Patricia Urquiola

Description

A lounge chair that inhabits the space it is placed in. The wide armrests lie on the sides of the seat section and wrap around it firmly, even though they have just one single joint.

Lounge chair A/B: Cold injected polyurethane with internal steel frame and elastic straps. Transparent PVC glides screwed to the structure. In the swivel version, the base is in black RAL 9005 varnished steel.

Lounge chair C: Lightweight composite structure in polymeric materials and wooden multilayer coated with differentiated density polyurethane foam. The seat features elastic straps for added comfort. In all models the cover is not removable. Made in Italy.
