

Tropicalia

Design: Patricia Urquiola

Description

Lounge chair with tubular structure in stainless steel or lacquered steel, suitable for outdoor use. PVC glides. Seat, backrest and armrests in technopolymer thread weave. Offered with or without armrests. Only for indoor use. The designer has creatively disguised the structure, allowing the seats to take on different personalities depending on the color schemes employed. The threading resembles a pencil line on a surface that is both graphic and structural it becomes both a constructive gesture and a form of identity. Made in Italy.
