

## Quantica

*Design: Adriano Rachele*

### *Description*

Suspension lamp inspired by the “quantum entanglement” concept, representing the cosmic entwinement of elements. Light interacts with shape in a luxurious, dense sculpture perfect for both private and commercial spaces. The golden textile effect has been applied to the almost weightless, unbreakable Opalflex technopolymer, cold-cut and then handcrafted.

A cold application of gold foil creates a unique texture that printing or paints cannot replicate. Available in 2 different sizes, both with dimmable bulbs an with shades made of Opalflex® with cold foil. 236”1/4 cable kit offered as an optional. Made in Italy.

#### **Light source:**

- . **Size A:** 4 X 12W E26 LED Filament Bulbs
- . **Size B:** 8 X 12W E26 LED Filament Bulbs

**Canopy**  
Ø6”1/4 x 1”1/4H
