

Hexagon

Design: Steven Holl

Description

The modern Hexagon ottoman is a modular system composed of two irregular hexagons supporting each other, which allows for the creation of endless compositions for every need. It is made of okume wood which is also known as Gaboon, and it is native of tropical West Africa, hence it withstands humidity and light rain or lecce stone, a limestone typical of the Southern region Puglia, superbly suited to withstand severe weather conditions. Made in Italy.
