

Balloons 21614

Description

This floor lamp embodies the essence of suspended elegance, where a metal tube gracefully connects to a matt white glass sphere through a distinctive wire. Far from being invisible, this wire becomes a central and defining element. The wire, artfully integrated into the design, adds a touch of dynamism and contemporaneity.

The visible connection between the metal tube and the sphere becomes a decorative element. The sphere, gracefully suspended by the wire, becomes the visual focal point of the floor lamp, emitting a warm and enveloping light. Made in Italy.

Light source: 1xE26 13W LED tubular

Dimensions

13"3/8 x 67"H

Lampshade: Ø7"7/8 | **Base:** Ø9"
