

## Lighting Lab 21016

*Design: Marco Innocenti*

### *Description*

Ceiling lamp with an intricate silhouette composed of a metal structure that branches out into several straight arms, each holding two grooved diffusers made of white or clear glass.

Each diffuser houses a bulb whose light is combined with the one produced by the strip LED contained in the glass shell that covers the central structure of the lamp. Made in Italy.

#### **Light source:**

24xE26 13W LED + 48W Strip LED 4000K (central)

### *Dimensions*

Ø49"1/4 x 42"1/8H

**Canopy:** Ø4" x 7"7/8H
