

Lily

Design: Marc Thorpe

Description

The elegant Lily side table & coffee table gets inspired by the architecture of the flowering plant nymphaeaceae. Lily is a system of low lying pads and surfaces which operate at various heights. When Lily is combined with its different sizes, the spatial effect can produce unique hybrid interaction through the layering of the pads and surface. This excellent piece of furniture comes with the top in high-end wood or premium marble and the base in painted metal. Made in Italy.

Finishes & Materials

Top: Wood or marble.

Base: Painted metal.
