

Network

Design: Paster & Geldmacher

Description

The elegant Network bookcase is part of a project aimed at creating a new and luxury multi-functional piece of furniture. A lightweight bookcase – with a slim and modular structure – equipped with mobile thermoformed panels in faux leather which can change configuration in line with the metallic structure of the bookcase, thus allowing a total customizing of the composition. In this way it creates a game of spaces between shelves, which invite one to combine and to change the design and function at any given time. Made in Italy.

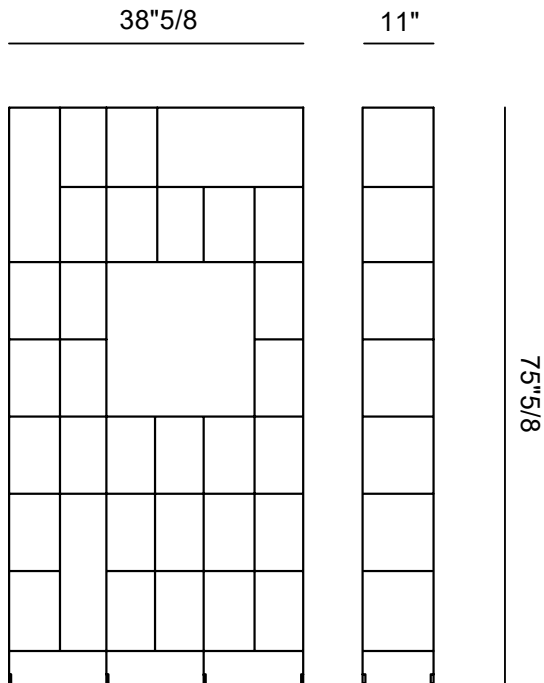

Finishes & Materials

Structure: Painted metal.

Shelves: Leather.

Dimensions

38"5/8W x 11"D x 75"5/8H
