

ComRì

Design: Sth

Description

The luxury ComRì sideboard is an elegant piece of furniture that comes with the structure, doors & drawers in premium lacquered MDF. A simple yet elegant sideboard where Horm's hallmark is perfectly recognizable in a minor ingenuity, that is, a front insert of a part of Toyo Ito's famous Ripples Bench, which characterizes its appearance by changing the minimalist approach adopted for the overall design. This element is nothing but the front of a thin jewellery drawer. Made in Italy.

Finishes & Materials

Structure, Doors & Drawers: Lacquered MDF.

Shelves: Tempered glass.
