

Ki

Design: Mario Bellini

Description

The elegant Ki chair comes with the legs in premium solid wood and the seat & backrest in high-end plywood. In the Japanese culture, the “ki” represents the energy found in every element. It is the inspiration for the challenging formal research that Mario Bellini solved with refined and modern taste. The result is a sinuous, lightweight seat. The back, embellished with an embossed decoration reminiscent of the diamond pattern of stitched fabric upholstery, is the formal feature for a chair that combines simplicity, elegance and ergonomics. Made in Italy.

Finishes & Materials

Structure: Wood.

Dimensions

17"W x 21"1/4D x 32"5/8H

SH: 17"3/4
