

# Riddled

*Design: Steven Holl*

## *Description*

A true work of art, the classy Riddled sideboard consists of an aluminium frame and five storage units made of origami-folded 2-mm wooden sheets thanks to a complex and patented technological process. Riddled Buffet conveys great charm and elegance through its sculptural volumes, already characterized by the typical perforated texture of many famous works by Steven Holl. The result is a faceted container, light and bright as a diamond but made of wood following Horm's unmistakable style. Made in Italy.
