

Sendai

Design: Toyo ito

Description

The elegant Sendai consists of six glass shelves connected through turned elements of solid wood, all different from each other in inclination and section. Movement and flexibility summarize the emotional power of Toyo Ito, who in this sculpture-bookcase captures the design essence of Sendai's media center (Japan), which he designed and used as inspiration. Sendai is definitely a piece of furniture of silent albeit captivating design, which reflects the typical oriental philosophy of the great architect. Made in Italy.

Finishes & Materials

Structure: Wood.

Shelves: Glass.
