

# Sinapsi

*Design: Sebastian Errazuriz*

## *Description*

The elegant Sinapsi is a modular shelf inspired by the electrical impulses of brain cells. The result is a single lacquered-polyurethane element designed to organically decorate your wall without any constraints. Simply repeat the various Synapsi combinations, side by side, rotating, or mirroring them to create many different compositions and decorate walls using your own imagination. Made in Italy.

## *Finishes & Materials*

**Structure:** Matt lacquered.

## *Dimensions*

51"1/8W x 8"1/4D x 23"5/8H
