

Tango

Design: Renato Zamberlan and Joe Doucet

Description

The elegant and versatile Tango table available in 9 sizes. Two extensions are hidden in a box under table top. Moving around the table, an asymmetrical change in the shape of the legs makes them look as if they are dancing sinuously. These details combined with a clever use of innovative materials such as Fenix, make Tango a functional product with a universal design Made in Italy.

Finishes & Materials

Top: Fenix.

Legs: Wood.
