

Ap

Design: Shin Azumi

Description

Stool made of moulded plywood. Available in blanched oak, stained dark walnut or open pore lacquered finishes in a variety of colors. Is it a stool or a sculpture? It is both. A tribute to the origami tradition, this stool has been created from the folding of a sheet of wood. And just as hands discover the endless shapes offered by paper and imagine animals, figures and stars, the AP profile surprises us with each one of its angles.

This stool has a powerful graphic appeal. Its lightness is a flight of butterflies. Stackable and resistant, AP almost resembles a hat. Elegant and refined, it has a fluid, abstract and ergonomic design. Made in Italy.

Dimensions

18"1/2W x 14"5/8D x 19"5/8H
