

Trail

Design: Giuseppe Baruso

Description

Table with die-cast aluminum legs and joints. Round fixed top made of steel and extruded aluminum crossbar. All powder-coated. MDF tops covered in various finishes, with lacquered edges and bottom. Stoneware tops also available. Adjustable nylon feet.

Trail is based on lightness and elegance, where references to the 1950s meet Nordic style. This solution features a die-cast aluminum base with soft lines.

Thanks to the different finishes Lapalma proposes for the base and top, Trail satisfies different tastes and design requirements, adapting perfectly into contemporary fluid spaces, in the home, the office and the contract sector. Made in Italy.
