

Yo

Design: Romano Marcato

Description

Height adjustable side table with block-lift for the top. Metal base, column and fixing plate powder coated. Top in several shapes in plywood of birch wood veneered with visible edge or in HPL Fenix® 3/8". Felt glides under the base.

Recalling the sign of victory, the YO table is successful thanks to its versatility, ideal for laptops or personal belongings, as a top in work or relaxation spaces. Thanks to its off-centre base and its Y-shaped leg, the top, available in different geometric shapes, perfectly aligns with armchairs and sofas.

Height-adjustable, it is as handy as a small desk. Yo is an additional top that combines practicality with aesthetic appeal. A light and versatile furnishing item that perfectly meets the needs of the contract sector. Made in Italy.
