

In The Wind

Design: Arihiro Miyake

Description

The In The Wind collection is made of extruded aluminum whose off-axis twisting allows diffuse 360° lighting. The helical shape is achieved through a technique developed specifically by Nemo. The diffusers are made of opaline methacrylate while the extremities are made of die-cast aluminum. Made in Italy.

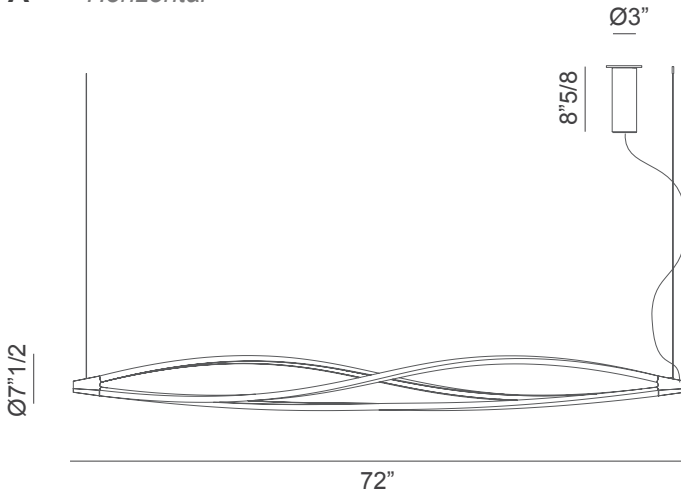

In The Wind

Dimensions

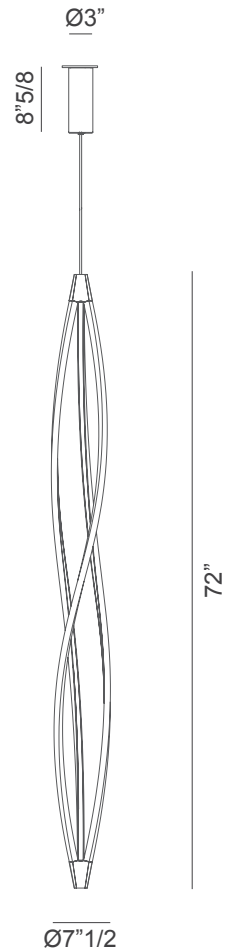

A: 72"W x Ø7"1/2

B: Ø7"1/2 x 72"H

A Horizontal

B Vertical

Source	Linear LED
Total power	60W
Emission	Diffused, 360°
Switching	Dimmable
Tension	120V
Color temperature	2700K or 3000K
Luminous flux	2570lm or 2850lm
Typ CRI	85
IP class	20
Materials	Aluminum + pc
Notes	Extra cable on request, 3500K and 4000K available on request, round cover plate included, integral driver dual capability TRIAC-ELV and 0-10V

A: Cable length Max. 196"7/8, metal cable length 118"1/8
B: Cable length Max. 118"1/8
