

Ori

Design: Romano Marcato

Description

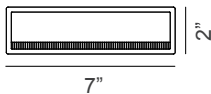

Workstation with a sturdy structure and elegant lines. The wood or HPL Fenix® top is available in a rectangular, square or round version. Thanks to existing holes, the slanted legs, in bent powder coated metal and solid ash wood, can be assembled in different positions to guarantee the ideal version for each context*. The wooden part of the legs can be easily removed to allow cable management. Glides in felt. Available in two different heights, 29"1/8H or 42"1/2H.

Its elegant minimalist character and the option of an electrified top make it a flexible and functional piece of furniture for every need: for working or socializing. Where the wood and metal come together and hide the cables that feed the top. Ori is an interesting and versatile solution for work areas. Made in Italy.

*The legs can be assembled in different positions (not available in size C and F).
