*Design: Luca Roccadadria*

## *Description*

Coffee and side table with metal base and round top, available in various finishes. The bush-hammered crystal finished top features a central item container recess.

The perfect combination of architecture and sculpture resides in the functional simplicity of these coffee tables. The thin circular base is projected upwards by four metal rods that support a larger top, emphasizing its concentricity. In the frosted glass version, a delicate concave in the center simulates the effect of gravity, attracting the unsupported part of the top towards itself. Made in Italy.
