

Random

Design: Giulio Manzoni

Description

Extendable dining table with wooden, concrete or Marble Glass tops and extensions. Sliding metal guides and metal tube base, designed with welds and screw joints. Height-adjustable feet.

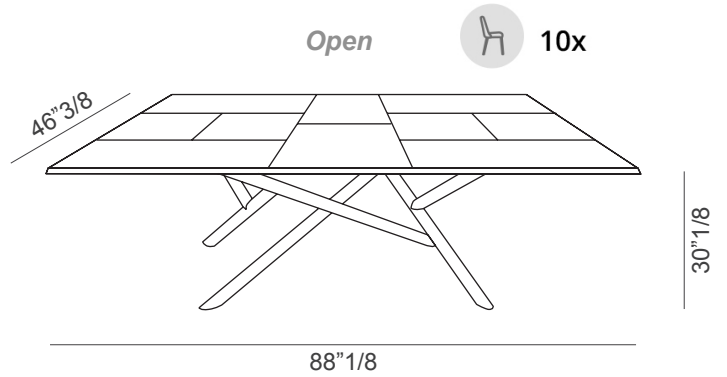

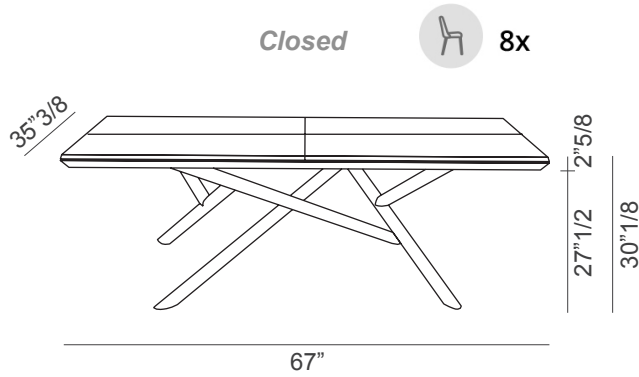

Random is an hypnotic and innovative design. The braided development of its intense shapes takes the attention of the observer, creating an intimal and personal bond between dimension and space. The extendable top guarantees an excellent functionality. Random maintains continuity in the design both with the table top closed and open. Made in Italy.
