

## Berlino

*Design: Bosco Fair*

### *Description*

The rationalist character that inspires the Berlino family finds its ultimate expression in the Berlino console, available in two different heights and with two different lengths of rectangular top. The richness of the finishes and the quality of the production enhance the formal rigor of the design and the sharpness of the lines.

The top is available in matt or glossy wood. Also available in the Berlino Maxi version with a matt or glossy wood top. The underside of the top is finished in Casa Casati Orange lacquer (Casa Casati's signature color). Made in Italy.
