

Giorgio

Design: Bosco Fair & Emanuele Genuizzi

Description

Giorgio I and Giorgio II are the cupboards of a family of lacquered containers inspired by Louis XV pieces with Chinese lacquered panels. Identical in their internal fittings, they have different but complimentary front panels. The oversized recessed metal handles are asymmetric as in the oriental tradition and are designed to be shown together. The external finishes are done either in Casa Casati's special exclusive lacquers, or in the various woods from the Casa Casati collection. Inside there is a single drawer (with bottom in leather) and adjustable glass shelves. The inside back is finished in mirror and fitted with LED lighting. The internal finish is also in various glossy lacquer finishes or in wood. The back of the cabinet is finished in Casa Casati Orange lacquer (Casa Casati's signature color). Ideal for use as a bar or container for the dining area. Made in Italy.

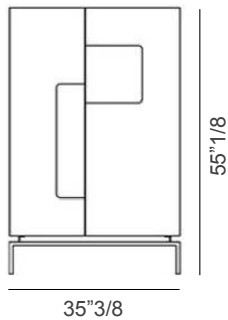

Giorgio

Dimensions

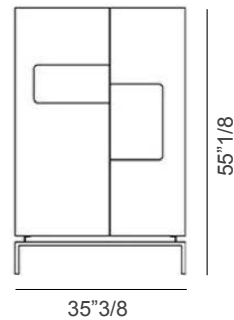

Giorgio I / II: 35"3/8W x 21"1/4D x 55"1/8H

Giorgio I XL / II XL: 49"5/8W x 21"1/4D x 63"H
