

Lola

Design: Bosco Fair & Emanuele Genuizzi

Description

A classic piece of European design revised in its proportions and finishes, available as a simple chair or with the elegantly curving back extending into the arms. Internal frame and legs are made of beech wood. Frame upholstery in shaped polyurethane.

Every part of the Lola chair, from the legs to the seat, from the structure to the back, is covered in a single material, either leather or fabric. The refined piping detail becomes one of the characteristics of the chair and can be offered in contrasting leather. Also available with wood legs stained in either Moka or Walnut. Made in Italy.

Dimensions

Chair: 19"5/8W x 23"5/8D x 31"7/8H
Armchair: 23"5/8W x 23"5/8D x 31"7/8H
