

## Splendo

*Design: Bosco Fair & Emanuele Genuizzi*

### *Description*

A wall mirror with a seemingly traditional style, but brought up to date by the rounded corners of the clear glass mirror floating on a synthetic gold leaf background. The three-dimensionality of the piece is accentuated by the marked formality of the faceted frame in a glossy wood finish that enhances the natural beauty of the wood.

Available in two versions; square or rectangular. It is a mirror of significant but not excessive dimensions, which can be placed both in a bedroom and in an entrance hall. Precisely because the style is apparently very traditional, the mirror can be combined with environments furnished in different styles, from the most modern to the most classic. Made in Italy.

### *Dimensions*

**Square:** 52"W x 2"3/4D x 52"H

**Rectangular:** 27"1/2W x 2"3/4D x 89"H
