

Strip

Design: Bosco Fair

Description

A mirror that plays with our perceptions, creating changes of color and slight vibrations in our sense of space. Stripes of colored mirror alternate with others in clear or fumè mirror to make an imposing panel framed in metal Dark Bronze finish, with matching finished screws.

The decorative effect of the mirror is particularly suggestive thanks to the reflections of the colored mirror stripes, Antique Gold, Sunset Pink or Cobalt Blue, and thanks to the delicate glow from the back panel, as always, finished in Casa Casati orange (Casa Casati's signature color). Made in Italy.
