

Toro

Design: Emanuele Genuizzi

Description

A coffee table that plays on natural colors and invites contact. Toro is not only to look at, but also to touch. Its lines evoke both Japanese taste and the sobriety of Nordic design. A lower shelf is integrated into the solid ash wood structure and can be fitted with one or two leather trays, which are pulled out using hidden guides. The top is available in transparent, smoked or bronzed tempered glass.

A piece that finds its ideal place in contemporary settings, thanks to the rigor of the lines and the harmony of the proportions. The essential design is combined with precious details such as the chromed metal spacers that support the top, the contrast-dyed edge of the leather tray and the bevelled edge of the glass top. Made in Italy.
