

Light

Design: Marco Fumagalli

Description

Some objects are designed to complement but end up becoming protagonists.

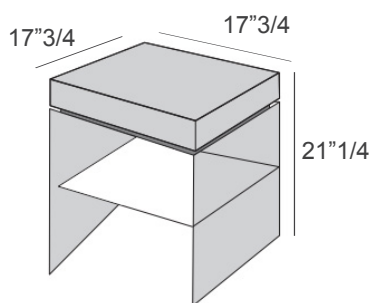

Light is a nightstand defined by clean geometric lines, available in two distinct versions.

One features a wooden drawer resting on a transparent glass structure, creating the illusion of floating in midair. The other pairs the drawer with a sleek metal base for a more grounded aesthetic. Striking the perfect balance between lightness and solidity, Light is the ideal space for putting dreams to sleep. Made in Italy.

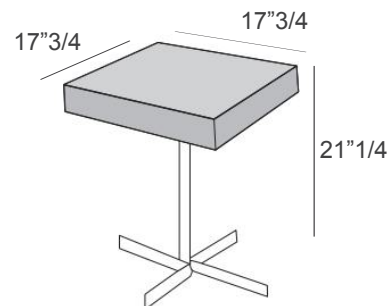

Dimensions

17"3/4W x 17"3/4D x 21"1/4H

Glass base version - Cod. KV1

Metal base version - Cod. KF
