

DNA

Design: Andrea Lucatello

Description

Dining table with Ø39”3/8 swivel tray embedded in the top, the rotation is 360° on a vertical axis. Metal base and height-adjustable feet.

Concentric shapes that are summarized in a functional Lazy Susan revolving tray. The DNA table offers the rotation of the ceramic top which allows all diners to socialize and interact. The central disk is enriched with ceramic finishes and surrounded by a wooden top. Made in Italy.
