

## Ellis

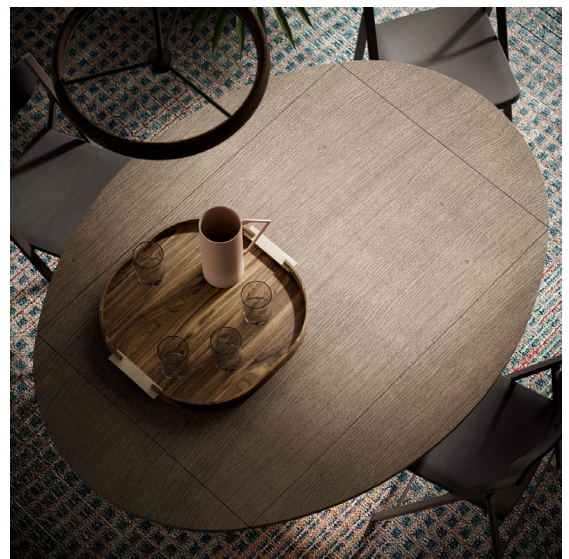

*Design: Giulio Manzoni*

### *Description*

Transformable coffee table that turns into a dining table. Extendable top in 8 positions. Top, extensions and legs in wood, gas lifting device. Adjustable at any height.

Ellis is the latest frontier of transformability. Thanks to its “wing” extensions, which allow it to change the shape and functionality from rectangular to oval, this transformable table gives the possibility to enjoy 8 and more opening positions. The “crossing” solid wood base combined with the top, it is adjustable to the millimeter to synchronize with the multiple opening functions of the top. Made in Italy.

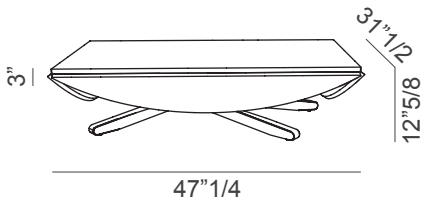

## Ellis

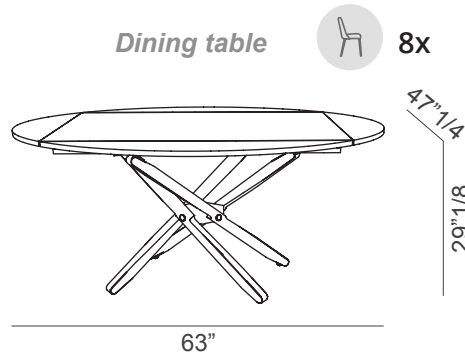

### Dimensions

47"1/4W x 31"1/2D x 12"5/8H  
 Extends to 63"W x 47"1/4D x 29"1/8H
