

Berlino

Design: Bosco Fair

Description

A family of tables inspired by the Modern Movement, in particular by the formal rigour of Mies van der Rohe and the free compositions of Gerrit T. Rietveld, in the arrangement of the thin metal sheets at right angles that form the base.

The top, characterized by the detail of the bevelled edges that lightens even the largest formats, is available in matt or glossy wood veneer. The base is available in a variety of metal finishes and reflects the recessed underside panel, finished in Casa Casati Orange lacquer (Casa Casati's signature color). Also the Cosmo decorative central piece is offered as an optional. A piece of great impact. Made in Italy.
