

# Wilma

*Design: Paolo Cattelan*

## *Description*

The creative idea that guided Paolo Cattelan in designing the Wilma was the need for a designer chair with a soft and welcoming model, devoted to complete comfort. The wide and well-finished range of upholstery includes soft leathers and fine fabrics designed to furnish any room in the house. The unique aspect of this modern chair is the curved backrest that sustains the back with a soft and delicate line, enhanced by the elegant decorative stitching.

### Technical information:

Chair with steel frame and covered in fabric, synthetic leather, micro nubuck or soft leather as per sample card. The cover is not removable.
