

## Star

*Design: Cesare Arosio*

### *Description*

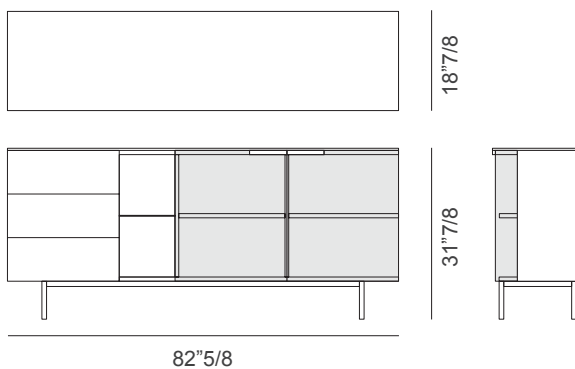

A modern sideboard that catches the eye, a masterpiece of balance between the transparency of glass and the warmth of wood.

The wooden structure that rests lightly on the painted metal base combined with the handles, the drawers that protect our belongings from curious eyes, the open compartment and the shelves that showcase what we love to admire, all in a harmonious mix that recalls the wardrobes of the past, now reinterpreted in a modern and elegant key.

The touch of class is given by the special hinge with angled opening, which surprises at the eye and makes Star the protagonist of the living room. Made in Italy.

### *Dimensions*

82"5/8W x 18"7/8D x 31"7/8H
