

# Thelma

*Design: Fabio Rebosio*

## *Description*

Chair with wooden structure, seat covered in leather, eco-leather or fabric. The soft lines of the rear legs that extend into the curve of the backrest make Thelma a unique chair, highlighting the refinement of the workmanship and the beauty of the wood. The meticulous study of the geometries is further enhanced in the version with armrests, ideal as a dining table head but also in front of a desk or writing desk. Made in Italy.
