

Dominique

Design: Cesare Arosio & Beatrice Fanchini

Description

Extendable dining table with solid ash wood structure. The simplicity of its lines and its perfectly balanced proportions make Dominique the archetype of the table.

The elegant base is an exercise in formal purity and subtractive design: the four solid ash wood legs are aligned with the four external corners of the table and support the thin top, available in veneered ash or in Cimento® (concrete). Aluminum telescopic mechanism with inner extensions veneered ash. Available in different sizes, Dominique adapts to any type of interior where quality and style reign. Made in Italy.
