

Octagon

Design: Norberto Delfinetti

Description

Modular bookcase with a solid ash or Canaletto walnut structure. Shelves veneered in ash or Canaletto walnut, in clear, transparent bronze, smoke glass or in metal painted in titanium color. Upper hook and foot in titanium painted metal. This bookcase can be wall mounted or floor to ceiling.

The Octagon bookcase pays homage to 1950s design. One composition can be composed of an octagonal solid wood upright onto which metal or glass shelves are grafted, generating a spiral designed to be seen from all perspectives. Suitable as a single element or in an articulated composition of several elements. Other compositions are available with more classic designs. Made in Italy.

Note:

Wooden shelves are offered in 2 different versions.
