

Plurimo

Design: Hanno Giesler

Description

Design meets functionality in an extendable table that changes both in length and in depth, thanks to an exclusive patented aluminum opening mechanism, that is how this versatile dining table embodies a plurality of different products. It is compact and wide at the same time, adaptable following the different needs, aimed at optimizing spaces without sacrificing class and elegance.

The trapezoidal legs and the extensions housed internally are available in a wide range of finishes, that make Plurimo changeable not only from a practical point of view but also from an aesthetic point of view. Made in Italy.

Technical information:

Structure in solid ash. Ash veneered top or Cimento (concrete).

Inner extensions veneered.

Aluminium opening mechanism.
