

Zeus

Design: Giuliano & Gabriele Cappelletti

Description

Zeus is an extendable table that combines past and present: it recalls the ancient worktops of the artisan workshops, reinterpreted and translated into a modern version. A simple and complex object at the same time, discreet but sophisticated, refined but functional.

The legs are a proportionate weave of solid ash or Canaletto walnut planks, which guarantee stability and solidity, making the structure unmistakably unique. Available in different sizes, with two bases supporting the wooden, lacquered glass or Laminam® (ceramic with marble effect) top. Self catering mechanism in aluminum and inner extension veneered in ash or Canaletto walnut. It adapts well to environments where refinement and elegance are required. Made in Italy.
