

Arragan

Design: Gabriele & Oscar Buratti

Description

The Arragan cupboard designed by Gabriele and Oscar Buratti stand out on account of their formal synthesis in which the softness of the lines and the continuity of the surfaces imbue them with a unique sculptural and harmonious identity. These accessories are configured as an architectural volume capable of interacting with the surrounding space, both as a wall element and as a double-sided divider, redefining the perception of the environment.

Made in Italy.
