

## Nido

*Design: Pino Vismara*

### *Description*

The charming Nido dartboard cabinet is a book-style opening unit that revolutionizes the traditional idea of darts. A perfect balance of functionality and contemporary style, it enhances modern and sophisticated spaces. Once closed it looks like a picture, but once opened it reveals a professional sisal target. A printed foam protects the space around the target, and on the inside of the door all the accessories are stored, like four sets of darts and a leather covered scorebook. Made in Italy.

### *Finishes and materials*

**Frame:** Lacquered wood.

**Door structure behind grid frame:** Veneer.
