Description

Delicate and full of charm, this enchanting set of two baby dolphin sculptures (one medium and one small) is an elegant tribute to the joy and innocence of marine life. Masterfully crafted from luminous Colle Val d'Elsa crystal, each figure captures the fluid movement and playful spirit of young dolphins with extraordinary clarity and lightness.

The soft, flowing lines of the crystal evoke the natural elegance of the sea, while the subtle variation in size creates a sense of movement and a gentle companionship between the two forms. Ideal as a refined decorative accent or a meaningful gift, this duo evokes serenity, freedom and the timeless beauty of nature, captured in crystal by the master artisans of Colle Val d'Elsa. Made in Italy.
