

Butterflyfish Family

Design: Duccio di Segna

Dimensions

5-piece composition:
Ø11"7/8 x 9"3/8H

Description

This five-piece Butterflyfish Family composition is a stunning expression of artistic refinement and natural beauty. Crafted from renowned Colle Val d'Elsa crystal, prized for its extraordinary clarity and radiant brilliance, each fish is sculpted with fluid elegance and precise detail, capturing the delicate harmony of these tropical creatures in serene motion.

The composition features 5 butterflyfish with curving shapes and finely articulated fins arranged in a dynamic, balanced configuration evoking the gentle rhythm of a family gliding through calm, sun-drenched waters. Whether displayed as a centerpiece or preserved in a collector's cabinet, the butterflyfish family brings a lasting sense of elegance and tranquility to any refined interior.

Made in Italy.
