

Camel & Dromedary

Design: Duccio di Segna

Dimensions

Camel: 11"7/8H

Dromedary: 11"7/8H

Description

Gracefully evoking the spirit of the desert, these distinguished pieces are sculpted from the luminous glass of Colle Val d'Elsa, the historic heart of Italy's fine glassmaking tradition. Each figure captures the serene resilience and dignified bearing of these noble creatures, long revered for their endurance, balance, and strength.

The camel, with its double humps and firm stance, and the dromedary, with its graceful and singular forms, are rendered with sculptural precision and subtle elegance. Ideal for sophisticated environments, the Camel and Dromedary sculptures are a statement of cultural reverence and artistic excellence. Made in Italy.
