

Caviar Holder Luxor

Design: Duccio di Segna

Description

An exquisite union of form and function, this crystal caviar holder is a celebration of refined taste and Italian craftsmanship. Crafted entirely from renowned Colle Val d'Elsa crystal, the piece features a finely sculpted crystal cup gracefully perched alongside one or two intricately detailed fish figures, each a testament to the region's centuries-old glassmaking tradition.

The fish, symbolizing abundance and vitality, appear to glide as if suspended in water; their fluid lines and subtle textures capture a sense of movement and grace. Whether used as a centerpiece on an elegant table setting or as a collector's item, this caviar holder embodies the clarity, brilliance and craftsmanship that distinguish Colle Val d'Elsa as a brand of enduring prestige in crystal craftsmanship. Made in Italy.
