Small Dog + Bone

### *Description*

Charming, elegant and imbued with intense symbolic warmth, the Dog and Bone sculpture set is a refined four-piece ensemble meticulously handcrafted from luminous Colle Val d'Elsa crystal. Comprised of a large dog, a medium dog, a small dog and a delicately sculpted bone, this set celebrates loyalty, companionship and playful affection, captured through the mastery of Italian artistry.

Each dog piece is sculpted with elegant simplicity and distinctive character. The large dog stands tall and protective, the medium dog embodies gentle attentiveness and the small dog expresses youthful curiosity. The minimalist, finely contoured crystal bone completes the scene with a subtle nod to joy and connection. Together, they form a harmonious composition of familial love and timeless charm. Made in Italy.
